

Pre trip Information Sheet

Thank you for choosing **Hooked On Adventures, LLC** for your exotic fishing trip to Brazil. The following information should help you prepare for your peacock bass fishing trip aboard the yachts in Brazil. It contains information regarding your travel documents, Brazilian visa, flight reservations, inoculations, personal clothing and travel items, and peacock bass fishing equipment.

Travel to Brazil

- ❖ **Brazil** is a stable and friendly country and travel to Brazil is safe and enjoyable. The Brazilian currency is the Real (pronounces “Hay-eyes”, plural) and can be exchanged in the airports, banks, and hotels in Manaus. Our English-speaking staff will meet you upon your arrival in the Manaus Airport and see to your every need throughout your trip in Brazil.
- ❖ **Passport:** A valid passport is required for travel to Brazil. Your passport must have an expiration date of at least 6 months past your return date from your trip to Brazil. If you do not already have a valid passport, you should obtain an application and begin the process as soon as possible. Normal processing time of a passport application is approximately 6-8 weeks. You may obtain a passport application through your local post office.
- ❖ **Brazil Tourist Visa:** A Brazilian Visa is *required* for travel to Brazil. ***You can now apply for your visa immediately WITHOUT the 90 days before your departure rule!*** You will find an instructional sheet regarding the process of obtaining your Brazilian Visa located in your booking package.
- ❖ **Air Travel:** When flying internationally, we recommend that you arrive at the departure airport at least 2-3 hours prior to your scheduled international departure to Manaus in order to have ample time to process your tickets and check your bags.

Please reconfirm your international flight times because these are subject to change without notice!

We recommend that you personally carry your bags from your U.S. flight to the ticket counter for your connecting flight to Brazil, and check them in instead of checking them from your home all the way to Manaus. On occasion, bags that were checked all the way through were late to arrive and customers have been forced to spend the week without their personal baggage.

Return Travel: We recommend that customers schedule a connecting flight home no sooner than 2-3 hours after landing back in the US following your return flight from Manaus. You will need to gather your baggage, clear customs, etc. We do provide the usage of fishing rods at no charge to you. This will save considerable time at Customs. If possible, we recommend reserving the night’s stay at a hotel in the US arrival city and flying home early the next morning.

- ❖ **Inoculations:** We advise that you consult your physician or local Health Department’s Travel Clinic and follow their recommendations.
- ❖ **Climate:** Manaus, Brazil is located 200 miles south of the equator. The daylight remains at a constant 12 hours per day with sunrise and sunset at 6 AM and 6 PM, respectively. The temperature ranges from 60-80 degrees at night to 70-95 degrees during the day. Although you will be fishing tributaries of the Amazon River during the “dry season”, rain showers are common and some can even last for a full day or more. Be prepared for weather conditions from hot and dry to wet and windy.
